

Knowledge Management/Business Analyst Consultant.

Looking for a stimulating position with a bright future?
Knowledge Management/Business Analyst Consultant. Full time 9 to 15-month contract project to deploy SharePoint for a global nonprofit in the life sciences. Requirements: 5-10 years in business analysis and/or knowledge management. Demonstrate successful lifecycle of knowledge management/enterprise content management project, including project planning, classifications of records or documents, user adoption strategy, and implementation. Must demonstrate outstanding analytical and communications skills. Experience with life sciences and/or SharePoint are a plus, but not required. Masters degree preferred, and certification in enterprise content management preferred.

IMPACT's Maryland-based project manager will oversee this project. Work will be on site at client's offices. Client is in Silver Spring, MD in easy walking distance to Metro station. Because some work will involve client staff located remotely, some telecommuting is possible.

Based in New York, IMPACT Management is a SharePoint specialty company and a Microsoft Gold Partner. We address client information and collaboration challenges in a creative and innovative manner. SharePoint is one of the hottest information platforms today. Come join our team!
